Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The prior art of record does not show or suggest the microwave oven as claimed in claim 14 and the method of thawing frozen foodstuff in a microwave oven as claimed in claims 1-3 and 24, which microwave oven comprises a microwave source, an oven cavity, and a control unit. The control unit is provided with an input signal containing information about the weight of the foodstuff, and causes the microwave source to feed microwaves at high average power of more than 400 W into the oven cavity during a first time interval as well as a second time interval, which are separated by a waiting period, so that the foodstuff will be essentially thawed by the end of the second time interval.
